The Delta Trading platform was designed to offer maximum flexibility to clients, giving them the ability to trade forex from one account, from either a desktop or mobile device. Delta Trading is a standardised platform, which means that all traders have identical capabilities, regardless of their geographical location. Unlike other traders, Delta Traders trade from one account using the same technology, and with the same leverage. Delta Trading does not support MetaTrader or MetaTrader 4. Users who do not have MetaTrader 4 may use a visual terminal. The aim of Delta Traders' platform is not to have all the features offered by other trading platforms, but to provide the experience and trading platform that is offered by a forex trading center. Delta Traders is one of the few global brokers that can beat the industry median on trade execution time and offer a wider market in diverse currency pairs. Regulation Delta Traders is regulated by the Cyprus Securities and Exchange Commission (CySEC), a fully independent European Union financial regulator. Delta Traders provides a fast and effective way to trade forex in markets that include the GBP, EUR, USD, CAD, AUD, SGD, CAD, AUD, CHF, EUR and JPY currency pairs, as well as USD/CAD, GBP/AUD and USD/JPY. All our traders are protected by the Cyprus Deposit Protection Scheme, up to a nominal, interest-free, minimum deposit of 50 EUR. Delta Traders has been doing business with traders since 2000 and is licensed
