Mil Free Internet Eraser Product Key Full Free [Win/Mac] [Latest 2022]

Mil Free Internet Eraser is a lightweight application designed to clean your computer of the Internet history and other tracks that are left behind. Web browsers store user names, passwords and other sensitive data, which may compromise your privacy, and this is why you need dedicated tools that are able to clean up the background of your online activity. Mil Free Internet Eraser boasts a clean interface that provides quick access to all its main functions, hence the entire process of cleaning private data seems nothing but a piece of cake. The cleaning procedure can be carried out even by less experienced users, as it only requires a single click. At the end of the task you can view details about the deleted items, such as cookies, browse history records and URL history. Moreover, the application keeps a log, which contains all the details about the removed files, and offers time estimation for completing the job. This cross-platform tool offers users the possibility of selecting the web browser to be cleaned as well as pick the cookies or history records. You can also make the program close the browser windows before proceeding with the cleaning procedure, or ask for your permission. During our testing we have noticed that Mil Free Internet Eraser manages to carry out a task pretty quickly and without errors throughout the entire process. It also remains light on the system resources. All things considered, Mil Free Internet Eraser proves to be a handy tool that helps you get rid of the private information stored by web browsers quickly and with minimum effort.
